ABOUT JALAL DEEN'S

HISTORY & LEGACY

Jalal Deen Marble Company is a family-owned business with a rich legacy that began in the early 1990s. Our founder, who started from humble beginnings as a laborer, used his integrity, dedication, and sharp business acumen to rapidly rise in the marble industry. His commitment to quality and customer satisfaction soon made him one of the leading marble suppliers in the country.

As a testament to his success, Jalal Deen became the Sole Country Distributor of **Diamant Boart**, a renowned Belgian company known for its high-quality diamond blades and stone-cutting equipment. Today, through our e-commerce platform, customers can easily access Diamant Boart products for marble, granite, and concrete cutting, ensuring precision and quality in every project.

Building on our founder's vision, his sons and grandsons have expanded Jalal Deen into a marble empire. Our work is proudly showcased in prestigious projects across Pakistan, including the **Prime Minister's House, Kakul**, and various **military academies**.

At Jalal Deen, we continue to uphold the values of craftsmanship, quality, and family tradition that have been at the heart of our success for generations.

Jalal Deen is a recognized supplier of high-quality marble and granite, specializing in delivering premium stone products for both residential and commercial projects. With decades of experience, we have established a strong reputation in the natural stone industry, providing top-tier materials sourced directly from quarries in Pakistan.

Our advanced technology, including **CNC WaterJet cutting**, allows us to meet the unique design and functional needs of our clients. We serve contractors, distributors, and dealers worldwide with a commitment to quality, craftsmanship, and customer satisfaction.

THE VISION OF JALAL DEEN

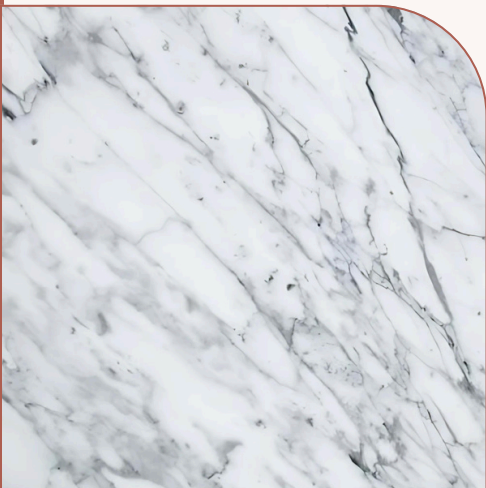

To become the leading natural stone supplier with a global presence, recognized for innovation, quality, and exceptional service.

THE MISSION OF JALAL DEEN

To provide world-class service, from the finest quarries to finished products, combining craftsmanship, technology, and customer-focused solutions.

PRODUCTS & SERVICES

Jalal Deen provides a wide range of marble and granite products, sourced from top-quality quarries both locally and internationally. Our expertise lies in transforming raw stone into finished products for residential and commercial projects.

STONE CUTTING

At **Jalal Deen**, we utilize advanced Gangsaw cutters to precisely slice large blocks of marble and granite into slabs. This cutting technology allows us to process multiple slabs simultaneously, ensuring efficiency without compromising on accuracy.

Whether for large-scale commercial projects or bespoke residential designs, our cutting process ensures that each piece of stone is tailored to the exact specifications needed, ready for further customization or installation. The precision of our Gangsaw cutters guarantees flawless cuts, making our marble and granite ideal for a variety of applications.

STONE POLISHING

At **Jalal Deen**, we enhance the natural beauty of marble and granite through a meticulous polishing process. Using advanced techniques, our skilled craftsmen create a smooth, glossy finish that brings out the vibrant colors and intricate patterns of each stone.

Polishing not only elevates the aesthetic appeal but also improves the durability of the stone, making it more resistant to stains and wear. Whether for countertops, flooring, or decorative elements, our polished marble and granite add a luxurious touch to any space, ensuring long-lasting beauty and elegance.

SHOWROOMS & FACTORIES

Watch Video
